**Subject:** Follow-Up from Lindsay Worthington

Dear Carolyn,

It was great chatting with you this afternoon! I am very excited to have you come speak to Delta Sigma Pi for our recruitment professional! The time you plan to give us is greatly appreciated.

This engagement is on Tuesday, January 25th, at 7:30 PM. We would love to take you to dinner before, or after, depending on what time is convenient for you to arrive in College Station. The chapter and recruits will be in professional business dress, but you may dress however you would feel more comfortable--business casual or professional. We prefer our speakers to stay within a 30-45 minute time frame. An introduction is always given before the speaker begins (maybe Ben will want to do it?? Or it will be me).

It would be great if you could send me some background information on yourself regarding your education, past work experience, your connection to A&M, etc.

Some possible points to cover in your speech: a background/crash course on how the television industry works or is broken down, and how WB 33 fits into the industry, your job description, what you have learned from the company, where you see WB 33 going in the future, what aspects of a good business person do you find essential for your business, and how the new legislation (Sarbanes Oxley (sp?)) has changed your job description.

Thank you again for your enthusiasm and willingness to interact with our organization! If you have any questions, please feel free to contact me!

Merry Christmas, Happy New Year, and I look forward to seeing you at the end of Christmas Break and also during the recruitment professional!

Warmly,

Lindsay Worthington

## The *HyperText* History of ...

America's Foremost Fraternity for Men & Women Pursuing Careers in Business

[Origin]- [1910's]- [1920's]- [1930's]- [1940's]- [1950's]- [1960's]- [1970's]-  
[1980's]- [Currently...]

In the beginning....

It was in the autumn of 1906 that the history of Delta Sigma Pi began. Life was much different then as there were only 46 states and the major method of transportation was by train. The airplane was flown for the first time only a few years earlier. The automobile was still a "toy" for the well to do; there were no talking movies; radio was very new and most homes were without a telephone. It was a time after what is termed the Industrial Revolution and before the times of World Wars, the Great Depression and the Age of Consumerism.

In the academic world at that time, the formation of Schools of Business were relatively new. There were only a handful of such schools in the United States in 1906 and one such school, known
